## Mexican Mennonites: from Religious Group to Ethnic Group, a Perspective from Cultural Anthropology

*Dr. Patricia Islas Salinas*

From their formation as an Anabaptist religious group in the sixteenth century during the Protestant Reformation, Mennonites have defended their beliefs and values through community sentiments and a religious identity that is based on their relationship with the Bible. The importance of faith and the notion of grace allowed them to survive the sociocultural atrocities they have suffered since their founding and that today distinguishes them from other groups.

In the 1870s, after experiencing a complicated diaspora, opportunities for growth as a society and Anabaptist community during one hundred years in Russia, and the imminence of the government imposition to end the *quilted* the more conservative Mennonites migrated to Canada and
