Dear Dr. Chapa,

We are pleased to inform you that your manuscript, "Bactericidal activity of silver nanoparticles in drug-resistant bacteria", has been accepted for publication in Brazilian Journal of Microbiology.

You will receive an e-mail in due course regarding the production process.

Please remember to quote the manuscript number, BJMI-D-22-01032R1, whenever inquiring about your manuscript.

With kind regards,  
Luis Augusto Nero  
Editor in Chief  
Brazilian Journal of Microbiology

Comments to the author (if any):

Reviewer #2: The authors made several modifications in the manuscript, in agreement with the reviewers. In this form, this work was improved.

Reviewer #3: The authors made important changes to the manuscript, considering the suggestions that were pointed out, going deeper into the introduction of the subject, discussions, and analyses carried out throughout the manuscript. Such modifications better highlighted the relevance and real contribution of the analyzes obtained in this study and made the manuscript more complete and easier to read. Therefore, the article is ready for publication.

Please note that this journal is a Transformative Journal (TJ). Authors may publish their research with us through the traditional subscription access route or make their paper immediately open access through payment of an article-processing charge (APC). Authors will not be required to make a final decision about access to their article until it has been accepted.

<b>Authors may need to take specific actions to achieve compliance with funder and institutional open access mandates.</b> If your research is supported by a funder that requires immediate open access (e.g. according to Plan S principles) then you should select the gold OA route, and we will direct you to the compliant route where possible. For

authors selecting the subscription publication route our standard licensing terms will need to be accepted, including our self-archiving policies. Those standard licensing terms will supersede any other terms that the author or any third party may assert apply to any version of the manuscript.
