

Dear Dora-Luz Flores, Miguel Angel Chevannier-Guerrero, Ricardo Perea-Jacobo, Rafael González-Landaeta, and Raquel Muñoz-Salazar, on behalf of the editors José Martínez-Carranza, Everardo Inzunza-González, Enrique E García-Guerrero and Esteban Tlelo-Cuautle, we are pleased to accept your book chapter titled: “Deep learning to classify pulmonary infectious diseases”. It will be included as Chapter 6 in the upcoming book “Machine Learning for Complex and Unmanned Systems”.

CRC Press requests your chapter to have an Abstract of about 100-200 words for dissemination purposes.

Other important issues that you are encouraged to attend are:

- a) Revise the length of your chapter to have between 15 and 25 pages
- b) Provide all figures with resolution of at least 300 dpi, and check the legibility of texts in the Figures.
- c) Avoid the use of Appendix or Glossary. The acronyms can be described in the first time they appear in your manuscript
- d) Reduce the caption of your Tables and Figures to less than 50 words
- e) Avoid the use of subsubsection. Section and subsection are ok
- f) To perform a fast proofreading by CRC Press, you are encouraged to provide complete References. For example: Authors, title, editorial, place and year for books
- g) Remove all References in your *.bib file that are not called in your Manuscript
- h) Remove all Figures that are not used but they are in your file Figures
- i) Provide at least 8 Keywords for indexing purposes
- j) Figures 6.1 and 6.2 are missed, and some citations are not compiled: trachea[?], Cayetano monitor [?], bronchitis [?], [190,503,?], strains [?], [94, 252, 256, 497, ?]
- k) Some errors need your attention: A prolonged QTc (ζ 450 ms in men, ζ 460 ms in women)
- l) The caption of Tables 6.1 and 6.4 are missed. Table 6.3 is not called in the main text and Table 6.2 is missed
- m) Table 6.3 gets out of the page margins; please, adjust it to be within.
- n) Section 6.5.3 contains what seems to be a table, but no caption is provided, and it gets out of the page margins; please, fix this.
- o) Table captions should be placed on the top of the table, not at the bottom.
- p) Add a conclusion section summarising the Chapter's contribution, results achieved, and insights on them.

Submit the final LaTeX files of your manuscript to the editors by May 31, 2023.
