

# Table of Contents

<b>Preface</b> .....	xv
<b>Chapter 1</b>	
Introduction of Environmental Materials and Relevant Technologies .....	1
<i>Takaomi Kobayashi, Nagaoka University of Technology, Japan</i>	
<b>Chapter 2</b>	
Non-Wooden Cellulose Materials Sourced From Plant Wastes .....	33
<i>Karla L. Tovar Carrillo, Universidad Autónoma de Ciudad Juárez, Mexico</i>	
<i>Ayano Ibaraki, Nagaoka University of Technology, Japan</i>	
<i>Takaomi Kobayashi, Nagaoka University of Technology, Japan</i>	
<b>Chapter 3</b>	
Cellulose-Based Functional Fine Particles and Fibers as Environmentally Friendly Materials: Development and Application .....	61
<i>Shoji Nagaoka, Kumamoto Innovative Development Organization, Japan</i>	
<i>Maki Horikawa, Kumamoto Industrial Research Institute, Japan</i>	
<i>Tomohiro Shirosaki, Kumamoto Industrial Research Institute, Japan</i>	
<b>Chapter 4</b>	
Cellulose Nanofibrils Composite Films .....	95
<i>Huixin Jiang, Oak Ridge National Laboratory, USA</i>	
<i>Hannah Snider, Oak Ridge National Laboratory, USA</i>	
<i>Xianhui Zhao, Oak Ridge National Laboratory, USA</i>	
<i>Saurabh Prakash Pethe, University of Tennessee, USA</i>	
<i>Shuvodeep De, Oak Ridge National Laboratory, USA</i>	
<i>Tolga Aytug, Oak Ridge National Laboratory, USA</i>	
<i>Soydan Ozcan, Oak Ridge National Laboratory, USA</i>	
<i>Kashif Nawaz, Oak Ridge National Laboratory, USA</i>	
<i>Kai Li, Oak Ridge National Laboratory, USA</i>	
<b>Chapter 5</b>	
Environmentally Sustainable Production of Bacterial Nanocellulose in Waste-Based Cell Culture Media and Applications .....	119
<i>Takaomi Kobayashi, Nagaoka University of Technology, Japan</i>	

## **Chapter 6**

Production of Sustainable Bioplastics Through Biomass Wastes Valorization to Mitigate Carbon Footprint Emissions ..... 155

*Takaomi Kobayashi, Nagaoka University of Technology, Japan*

*Debbie Dominic, Universiti Sains Malaysia, Malaysia*

*Nurul Alia Syufina Abu Bakar, School of Industrial Technology, Universiti Sains Malaysia, Malaysia*

*Siti Baidurah, School of Industrial Technology, Universiti Sains Malaysia, Malaysia*

## **Chapter 7**

Chitosan and Its Biomass Composites in Applications ..... 169

*Truong Thi Cam Trang, Vietnam National University, Vietnam*

*Khoa Dang Nguyen, Van Lang University, Vietnam*

## **Chapter 8**

Chitosan-Based Hydrogels: Current Strategic Fabrication and Practical Application Perspectives .. 203

*Tu Minh Tran Vo, Chulalongkorn University, Thailand*

*Takaomi Kobayashi, Nagaoka University of Technology, Japan*

## **Chapter 9**

Insect Resources for Chitin Biomass ..... 241

*Guillermo Ignacio Guangorena Zarzosa, Nagaoka University of Technology, Japan*

*Takaomi Kobayashi, Nagaoka University of Technology, Japan*

## **Chapter 10**

Bioconversion of Waste Materials for the Production of Polylactic Acid to Alleviate Carbon

Footprint ..... 269

*Debbie Dominic, Universiti Sains Malaysia, Malaysia*

*Nurul Alia Syufina Abu Bakar, Universiti Sains Malaysia, Malaysia*

*Siti Baidurah, Universiti Sains Malaysia, Malaysia*

## **Chapter 11**

Pectin Materials Sourced From Agriculture Waste: Extraction, Purification, Properties, and

Applications ..... 285

*Tapanee Chuenkaek, Nagaoka University of Technology, Japan*

*Tu Minh Tran Vo, Chulalongkorn University, Thailand*

*Keita Nakajima, Nagaoka University of Technology, Japan*

*Takaomi Kobayashi, Nagaoka University of Technology, Japan*

## **Chapter 12**

Biomass Hydrogel Drug and Ultrasound Delivery Therapy Technology ..... 321

*Harshani Iresha, University of Peradeniya, Sri Lanka*

*Tu Minh Tran Vo, Nagaoka University of Technology, Japan*

### **Chapter 13**

- ERS Vacuum Fermentation and Drying Bioreactor Contributing to Recycling of Organic  
Containing Wastes ..... 351  
*Shinichi Shimose, JET Corporation, Japan*  
*Tomoyuki Katayama, JET Corporation, Japan*

### **Chapter 14**

- Pollutant Remediation Using Inorganic Polymer-Based Fibrous Composite Adsorbents ..... 369  
*Anh Phuong Le Thi, Nagaoka University of Technology, Japan*  
*Ngan Phan Thi Thu, Nagaoka University of Technology, Japan*  
*Takaomi Kobayashi, Nagaoka University of Technology, Japan*

### **Chapter 15**

- Removal of Metal Ions With Biomasses and Bioremediation ..... 399  
*Minoru Satoh, National Institute of Technology, Ibaraki College, Japan*

### **Chapter 16**

- Extracting Technology Upcycling Toward Useful Metallic Materials From Mineral Wastes and  
Pollutant Soil by Ultrasound Washing ..... 425  
*Tri Phuoc Phan, JET Corporation, Japan*

### **Chapter 17**

- Assessing the Photocatalytic Performance of Carbon-Based Semiconductors in the Degradation  
of Pharmaceutical Wastes ..... 455  
*Nursarah Sofea Ismail, Universiti Sains Malaysia, Malaysia*  
*Ahmad Fadhil Bin Rithwan, Universiti Sains Malaysia, Malaysia*  
*Sirikanjana Thongmee, Kasetsart University, Thailand*  
*Siti Fairus Mohd Yusoff, Universiti Kebangsaan Malaysia, Malaysia*  
*Rohana Adnan, Universiti Sains Malaysia, Malaysia*  
*Noor Haida Mohd Kaus, Universiti Sains Malaysia, Malaysia*

### **Chapter 18**

- Geopolymers Prepared From Unused Resources and Their Applications ..... 487  
*Yuta Watanabe Nikaido, Tama Chemicals Co. Ltd., Japan*  
*Sujitra Onutai, Japan Atomic Energy Agency, Japan*  
*Sirithan Jiemsirilers, Chulalongkorn University, Thailand*  
*Takaomo Kobayashi, Nagaoka University of Technology, Japan*

**Chapter 19**

Rapid and Easy Colorimetric Detection for Specific Heavy Metal Ions Contaminated in  
Environmental Soil ..... 517

*Reiko Wakasugi, National Institute of Technology, Kumamoto College, Japan*

*Ryo Shoji, National Institute of Technology, Tokyo College, Japan*

*Hitomi Fukaura, Limited Company Sakamoto Lime Industry, Japan*

*Yasunori Takaki, Limited Company Sakamoto Lime Industry, Japan*

*Hiroyuki Kono, National Institute of Technology, Tomakomai College, Japan*

**About the Contributors** ..... 537

**Index**..... 547
